June 1, 2009

A Green Mountain Transit Agency (GMTA) bus carrying passengers from Burlington to Montpelier was involved in an accident this morning on I-89 Southbound between the Montpelier and Middlesex exits.

According to State Police on the scene, four people, including the bus driver, were transported for medical attention. In addition to our concern and wellbeing of everyone involved, our primary focus at this point is to work with the State Police and other State agencies with their investigation into the cause of the accident.

GMTA and CCTA buses will be operating as scheduled for the rest of the week.
